Full-Stack Developer

I'm a Full-Stack Developer with hands-on experience building responsive, user-focused web applications. Experienced in React, Next.js, Node.js, and API development, with exposure to real-world product collaboration through a remote frontend internship. Strong focus on clean UI, scalable architecture, and practical problem-solving.

PROFESSIONAL EXPERIENCE

Frontend Developer Intern
Early-stage Frontend Product Team | Late November 2024 – Present

- Contributing to UI design and frontend implementation for a web-based product in a remote team environment

- Building reusable and maintainable frontend components using modern JavaScript frameworks

- Improving layout consistency, responsiveness, and overall user experience

- Collaborating asynchronously with developers to translate product requirements into functional UI

Full-Stack Developer (Project-Based)

BookHive – Library Management System |November 2024
- Implemented centralized user management and role-based access control

- Built a scalable system for managing book inventory, reservations, and borrowing workflows.

- Implemented secure authentication using NextAuth and JWT to protect routes and backend APIs

- Designed and configured cron-based background jobs to automate recurring backend tasks

- Delivered the project within a short timeline, focusing on core functionality and usability

Kongahub – E-commerce Platform | January 2024 – February 2024
- Built a full-stack e-commerce application using Node.js and Express

- Implemented authentication, product management, payment gateway integration, and admin controls

- Designed backend APIs and data workflows to support real-world use cases

Flowline – Social Web Application | June 2024 – September 2024
- Developed a responsive web application using Next.js

- Implemented feeds creation included Cloudinary as the storage.

- Implemented secure authentication, dynamic content feeds, and social interaction features.

ParcelBot – Delivery & Admin Platform | October 2024
- Built admin-side full-stack features for a delivery management system

- Designed and implemented UI screens in Figma for admin workflows

- Contributed to frontend and backend logic for managing orders and deliveries

EDUCATION
Bachelor of Science (B.Sc.) in Computer Science
Niger Delta University | 2020 – 2024

TECHNICAL SKILLS
- Frontend: HTML, CSS, JavaScript, React, Next.js
- Backend: Node.js, Express.js
- Databases: MongoDB
- Tools & Platforms: Git, Postman, Cloudinary
- Languages: JavaScript, Python, C++

SOFT SKILLS
Problem Solving | Communication | Team Collaboration | Adaptability | Time Management | Attention to Detail
